SB 328	Portantino	Pupil attendance: school start time	<p>This bill (1) prohibits middle schools and high schools, including those operated as charter schools, from beginning their schoolday before 8:30 a.m.; and (2) requires implementation of the 8:30 a.m. or later start time by middle schools and high schools by no later than July 1, 2021, or the date on which a school district's collective bargaining agreement that is operative on July 1, 2019, expires, whichever is later.</p> <p><i>VETO message: "This is a one-size-fits-all approach that is opposed by teachers and school boards. Several schools have already moved to later start times. Others prefer beginning the school day earlier. These are the types of decisions best handled in the local community."</i></p>	Vetoed
SB 354	Portantino	Special education: individualized education programs: translation services	<p>This bill requires a local educational agency, upon a parent's request, to translate the student's individualized education program (IEP) and other related documents in the native language of the parent within 30 calendar days of the IEP team meeting.</p> <p><i>VETO message: "I cannot support this bill. Current law requires that non-English speaking parents understand their child's IEP, and in fact gives parents the right to have an interpreter present at their child's IEP meetings. SB 720	Allen	Environmental education: environmental principles and concepts	This bill revises provisions relating to the education principles for the environment by, among other things, (1) renaming them the environmental principles and concepts; (2) revising the process for, and entities involved in, updating the environmental principles and concepts; and (3) requiring the Instructional Quality Commission to ensure that the environmental principles and concepts are integrated into content standards and curriculum frameworks whenever those standards and frameworks are revised. Generally, I remain concerned about the exposure of marijuana on youth and am dubious of its use for youth for all ailments. AB 310	Medina	Part-time faculty office hours	This bill requires each community college district to annually report the total part-time faculty office hours paid divided by the total part-time faculty office hours taught and to post this information on its Internet Web site. <i>VE TO message: "As I stated in the veto of AB 2069 of 2016, the state recognizes the many contributions part-time faculty make in students' lives. AB 664	Steinorth	Political Reform Act of 1974: campaign fund expenditures	This bill prohibits a candidate controlled committee from paying an amount greater than fair market value for goods, services, facilities, or anything else of value if the payment is made to specified family members of the candidate or elected officer who controls the committee. VETO message: "This proposed new authority for the Fair Political Practices Commission concerns me. Will the Commission now examine campaigns to determine whether they pay the right amount to their staffers and consultants? Would this require salary surveys? This strikes me as a personnel decision more properly left to the candidate and the campaign manager, and not fodder for accusations made in the heat of a campaign. Many have said that I pay far below "fair market value." I say everyone else pays too much. Whoever is right, this decision is not one for the Fair Political Practices Commission."	Vetoed

Chapter 96, Statutes of 2018
AB 1947	Low	Petitions: compensation for signatures	This bill prohibits paying circulators to collect signatures on an initiative, referendum, or recall petition on a per-signature basis. VETO message: "As I stated in my veto message to an almost identical bill --SB 168 of 2011-- 'per-signature payment is often the most cost-effective method for	Vetoed

			collecting the hundreds of thousands of signatures needed to qualify a ballot measure. Eliminating this option will drive up the cost of circulating ballot measures, thereby further favoring the wealthiest interests.’ While I understand the potential abuses of the current per-signature payment system, my perspective has not changed since 2011. Moreover, it is common practice for county election officials to keep pre-registered voter data confidential. Therefore this bill is unnecessary."</p>	Vetoed
AB 2352	Low	Elections: reportable events	<p>This bill requires county elections officials to document reportable events, as defined, and submit information regarding these events to the Secretary of State for review and guidance, as specified.</p> <p>VETO message: "Each election approximately 400 reportable events are referred to the Secretary of State, for guidance and review. AB 2060	Eduardo Garcia	Water: grants: advanced payments	<p>This bill requires the State Water Resources Control Board, within 60 days of awarding a grant under either the small community Grant Fund or the Proposition 1 funds for safe affordable drinking water, to provide a project proponent that requests and demonstrates a need for advanced payment with an advanced payment of a percentage of the grant award.</p> <p><i>VETO message: "I appreciate the author's intent to help nonprofit organizations and disadvantaged communities meet cash-flow needs when managing projects. In recent years, however, the State Water Board has established other means for grantees or address cash-flow problems. For example, the State Water Board facilitates payment of invoices, including paying additional fees to the State Controller for expedited processing. 			<i>VE TO message: "Without question, these two extra hours will result in more drinking. The businesses and cities in support of this bill see that as a good source of revenue. The California Highway Patrol, however, strongly believes that this increased drinking will lead to more drunk driving. Residential, outpatient and case management-all are needed, voluntarily undertaken or coercively imposed by our courts. Both incentives and sanctions are needed. One without the other is futile. There is no silver bullet, quick fix or piecemeal approach that will work. A comprehensive effort at the state and local level is required. Fortunately, under the Affordable Care Act, California now has federal money to support a much expanded system of care for the addicted. That's the route we should follow: involving many parties and many elements in a thoroughly integrated undertaking. I repeat, enabling illegal and destructive drug use will never work. AB 3080	Gonzalez Fletcher	Employment discrimination: enforcement	This bill addresses two legal tactics, commonly used in relation to employment contracts that can be and have been exploited to silence victims and witnesses of workplace sexual harassment: (1) the inclusion of non-disparagement	Vetoed

			<p>clauses; and (2) forcing workers to sign mandatory arbitration agreements. As to the first tactic, this bill tries to limit abuse of non-disparagement agreements by making it unlawful for employers to prohibit workers from disclosing an instance of sexual harassment, opposing an unlawful practice, or participating in any investigation relating to harassment or discrimination. As to the second tactic, since current federal case law strongly favors enforcement of mandatory arbitration agreements, even when used to keep allegations of sexual harassment from becoming public, California cannot outlaw or discriminate against such agreements. Instead, this bill ensures that California workers who sign agreements to waive their rights to any particular forum or procedure for dispute resolution do so voluntarily and that those who elect not to sign such agreements are not subjected to retaliation as a result.</p> <p><i>VETO message: "In my veto message of a similar bill in 2015, I referred to recent court decisions that invalidated state policies which unduly impeded arbitration. I also wanted to see how future United States Supreme Court decisions developed before endorsing a broad ban on mandatory arbitration agreements. The direction from the Supreme Court since my earlier veto has been clear - states must follow the Federal Arbitration Act and the Supreme Court's interpretation of the Act. DIRECTV, Inc. v. Imburgia, 136 S. Ct. 463, 468 (2015). This bill is based on a theory that the Act only governs the enforcement and not the initial formation of arbitration agreements and therefore California is free to prevent mandatory arbitration agreements from being formed at the outset. The Supreme Court has made it explicit this approach is impermissible. In 2017 Justice Kagan, an appointee of President Obama, writing on behalf of a near-unanimous Supreme Court, clearly rejected the assertion that the Federal Arbitration Act has no application to contract formation issues: 'By its terms, . . . the Act cares not only about the 'enforce[ment]' of arbitration agreements, but also about their initial 'valid[ity]'-that is, about what it takes to enter into them. Or said otherwise: A rule selectively finding arbitration contracts invalid because improperly formed fares no better under the Act than a rule selectively refusing to enforce those agreements once properly made. Precedent confirms that point.' Kindred Nursing Centers Ltd. Partnership v. Clark, 137 S. Ct. 1421, 1428 (2017). Since this bill plainly violates federal law, I cannot sign this measure."</i></p>	
AB 3109	Mark Stone	Contracts: waiver of right of petition or free speech	This bill renders unenforceable any provision in a contract or settlement agreement that prevents a person from testifying, in a judicial, administrative, or legislative proceeding, in response to a court order, subpoena, or official request, about alleged criminal conduct or sexual harassment. AB 3120	Gonzalez Fletcher	Damages: childhood sexual assault: statute of limitations	<p>This bill (1) extends the time for commencement of actions for childhood sexual assault to 40 years of age or five years from discovery of the injury; (2) provides enhanced damages for a cover up, as defined, of the assault; and (3) provides a three-year window in which expired claims would be revived.</p> <p><i>VETO message: "In 2013 I vetoed a substantially similar bill, SB 131 (Beall). My views have not changed. As I said then:</i></p> <p><i>Statutes of limitation reach back to Roman law and were specifically enshrined in the English common law by the Limitations Act of 1623. Ever since, and in every state, including California, various limits as the law in this area has always and rightfully imposed longer periods of liability for an actual perpetrator of sexual abuse than for an organization that employed that perpetrator. This makes sense as third parties are in a very different position than perpetrators with respect to both evidence and memories.</i></p> <p><i>For claims against a perpetrator of abuse, the current law is that a claimant must sue within eight years of attaining the age of majority (i.e. age 26) or "within three years of the date the plaintiff discovers or reasonably should have discovered that psychological injury or illness occurring after the age of majority was caused by the sexual abuse, whichever period expires later[.]</i></p> <p><i>However, for claims against a third party - e.g. an organization that employed the perpetrator of the abuse - the general rule since 1998 was that a claimant must sue before he or she turns 26. A later discovered psychological injury - no matter how compelling - could not be brought against a third party by a person older than 26.</i></p> <p><i>When a number of high profile sex abuse scandals in both public and private institutions came to light, many felt that the third party limitation rule described above was too harsh and that claimants over 26 should be able to recover damages for later discovered injuries from certain, more culpable entities.</i></p> <p><i>In 2002, the California Legislature weighed the competing considerations on this issue and enacted SB 1779, which did the following: (1) It identified for the first time a new subcategory of third party defendants which no longer would have the protection of the age 26 cutoff for claims. Going forward these defendants - entities who knew or should have known of the sexual abuse and failed to take action - now could be sued within three years of the date of discovery of a claim. (2) Looking backwards, SB 1779 also revived for one year</i></p>	Vetoed
---------	-------------------	---	--	--------

			<p><i>only (2003) all claims that had previously lapsed because of the statute of limitation. This very unusual "one year revival" of lapsed claims allowed victims relief but also set a defined cut-off time for these lapsed claims.</i></p> <p><i>In reliance on the clear language and intent of this statute, the private third party defendants covered by this bill took actions to resolve these legacy claims of victims older than 26. Over 1,000 claims were filed against the Catholic Church alone, some involving alleged abuse as far back as the 1930s. By 2007, the Catholic Church in California had paid out more than \$1.2 billion to settle the claims filed during this one year revival period. Other private and non-profit employers were sued and paid out as well.</i></p> <p><i>For the public third parties covered by this bill, however, a very different result occurred. There is no doubt that in 2002, when SB 1779 was enacted, it was intended to apply to both public and private entities. Indeed, it would be unreasonable, if not shocking, for the Legislature to intentionally discriminate against one set of victims, e.g. those whose abusers happened to be employed by a public instead of a private entity. However, due to a drafting error, the California Supreme Court held in 2007 that SB 1779 did not actually apply to public or governmental agencies. So, unlike private institutions, public schools and government entities were shielded from the one year revival of lapsed claims. As a result, the similarly situated victims of these entities were not accorded the remedies of SB 1779.</i></p> <p><i>In 2008, the Legislature addressed this unfair distinction between victims of public as opposed to private institutions. Note, however, that the bill enacted, SB 640, did not restore equity between these two sets of victims. Instead of subjecting public/governmental entities to all of the provisions of the 2002 law, the Legislature only allowed victims of public institutions to sue under the new rules prospectively-from 2009 forward-and provided no "one year revival" period.</i></p> <p><i>In passing this 2008 law, I can't believe the legislature decided that victims of abuse by a public entity are somehow less deserving than those who suffered abuse by a private entity. The children assaulted by Jerry Sandusky at Penn State or the teachers at Miramonte Elementary School in Los Angeles are no less worthy because of the nature of the institution they attended. Rather, I believe that legislators, in good faith, weighed the merits of such claims against the equities of allowing claims to be brought against third parties years after the abuse occurred. The Legislature concluded that fairness required that certain claims should be allowed, but only going forward.</i></p>	
--	--	--	---	--

			<i>The bill now before me, AB 3120, is broader than SB 131, does not fully address the inequity between state defendants and others, and provides a longer revival period for otherwise barred claims. For these reasons, as well as those previously enumerated in the veto message referenced above, I cannot sign this bill."</i>

SB 880	Pan	Workers' compensation	This bill permits the employers to conduct a pilot program on transmitting disability indemnity benefits by a prepaid card, rather than a paper check.	Chapter 730, Statutes of 2018
SB 899	Pan	Workers' compensation	<p>This bill prohibits a physician from using race, gender, or national origin in determining the percentage of permanent disability that was caused by other factors before and subsequent to the industrial injury.</p> <p><i>VETO message: "I am vetoing this bill for many of the same reasons that I returned a similar measure in 2011 - Assembly Bill 1155. This bill is unnecessary as it would not change existing law and may disturb settled court decisions, which already provide protection from the inappropriate application of the apportionment statutes. SB 1223	Galgiani	Construction industry: discrimination and harassment prevention policy	<p>This bill instructs the Division of Labor Standards Enforcement to develop recommendations for an industry-specific harassment and discrimination prevention policy for the construction industry.</p> <p><i>VETO message: "The Department of Fair Employment and Housing is charged with enforcing the provisions of the Fair Employment and Housing Act, including those pertaining to preventing and remedying sexual harassment and discrimination. AB 235	O'Donnell	Apprenticeship and preapprenticeship	<p>This bill (1) authorizes a two-pronged process for the approval of apprenticeship programs, maintaining the current process for building trades and firefighting apprenticeship programs, and establishing a separate path for programs in newly emerging areas of apprenticeship; (2) creates the new Interagency Advisory Committee on Apprenticeship to focus on the approval and oversight of apprenticeship programs in non-building trades and non-firefighting industries; (3) creates pre-apprenticeship provisions to formally recognize these programs as a pathway to apprenticeship; and (4) makes other Labor Code and Education Code conforming changes to implement these new policies.</p>	Chapter 704, Statutes of 2018
AB 479	Gonzalez Fletcher	Workers' compensation: permanent disability apportionment	<p>This bill explicitly delineates specific requirements for physicians when calculating permanent disability due to breast cancer.</p> <p><i>VE TO message: "This proposal is similar to three previous measures that I have vetoed, Assembly Bill 570 in 2017, Assembly Bill 1643 in 2016 and Assembly 305 in 2015. This bill and its predecessors have repeatedly singled out specific conditions and proposed a special set of rules that apply to them. This would result in an even more complex workers' compensation system that would essentially be "disease by statute," which would ultimately burden injured workers seeking quick resolution to their claims. Policy questions about the adequacy of the State's workers' compensation system are best addressed through empirically based research and analysis. Therefore, I am directing the Division of Workers' Compensation Administrative Director, in consultation with the Commission on Health and Safety and Workers' Compensation, to contract with an outside independent research organization to undertake an evidenced based evaluation of the issue. Specifically, the Administrative Director should review the following:</i></p> <ol style="list-style-type: none"> <i>1. AB 553	Daly	Workers' compensation: return-to-work program	<p>This bill requires that the Director of the Department of Industrial Relations distribute the entire \$120 million from the Return to Work fund annually to all eligible workers.</p> <p><i>VETO message: "The Return-to-Work Program began in 2015 and is relatively new. AB 1697	Committee on Insurance	Workers' compensation	<p>This bill creates explicit authorization for the Division of Workers' Compensation to create an anti-fraud support unit and require that the anti-fraud support unit develop written policies and procedures for combating workers' compensation fraud, as specified.</p> <p><i>VETO message: "The work required by this measure is already underway. It would also require complaints alleging sexual harassment to be maintained for the same length of time regardless of the result of the investigative process, meaning even unfounded complaints would need to be maintained. For these reasons, and because current law already requires personnel records --including records of complaints-- be maintained for suitable periods of time, the time expansion of this bill is unwarranted."</i></p>	
AB 1976	Limón	Employment: lactation accommodation	This bill requires that an employer make reasonable efforts to provide an employee wishing to express breast milk in private with an area in close proximity to their workspace that is not a bathroom.	Chapter 940, Statutes of 2018

AB 2314	Ting, Gonzalez Fletcher	Private employment: domestic workers	<p>This bill requires that the Department of Industrial Relations' Division of Labor Standards Enforcement create a Domestic Work Enforcement Pilot Program, in collaboration with qualified organizations, to provide resources, education, and training regarding labor standards in the domestic work industry for both employees and employers.</p> <p><i>VETO message: "The author of this measure added a provision to the 2018-19 Budget Act that requires the Division of Labor Standards Enforcement to provide a report, by July 1, 2019, on the labor enforcement actions that have been taken by the Division to date, what barriers exist that may prevent greater enforcement, and to provide recommendations on improving employer compliance through outreach and education. Given the wide variety of domestic work and the sparse information available, I believe the legislature should wait for the findings of this report, and then conduct thorough and thoughtful hearings on how families can take care of their loved ones in a fair and affordable manner. Keeping a family member out of a nursing home and in a place where they have lived for years is a profoundly moral and social good. I urge the legislature to tread carefully when adding more enforcement rules or costly mandates on ordinary families trying to do their best for their infirmed or aging loved ones."</i></p>	Vetoed

AB 2496	Gonzalez Fletcher	Janitorial employees: employment status: burden of proof	This bill creates a rebuttable presumption that a worker in the janitorial field is an employee, and therefore is due the same protections and privileges as other employees. <i>VETO message: “I share the Author’s concern about protecting the most vulnerable workers as well as the general concern about providing clarity regarding worker classification. The California Supreme Court recently issued a significant decision establishing a new test to determine whether a worker is properly classified as an employee or an independent contractor, Dynamex Operations West, Inc. v. However, there is additional language that requires every single employer to provide to every single employee - millions in the state-- a new and detailed list of rights related to labor trafficking. Clearly, remedies are needed to correct such situations.</i></p> <p><i>But I'm concerned that this bill's broad provisions could be easily abused to circumvent limitations in law intended to protect the government-and ultimately taxpayers-from pension spiking. Indeed, in the case of an error, this bill would effectively perpetuate that error for the rest of a member's life, at substantial taxpayer expense.</i></p> <p><i>Before changing the law in the way that this bill does, I encourage the Legislature to develop policies to prevent such errors in the first place. The statute was not further extended at that time, and Penal Code Section 12022.6 was therefore repealed on January 1, 2018. AB 1511 now seeks to re-enact this repealed enhancement, but omits any sunset provision similar to those that have been included with this statute since 1990. I see no reason to now permanently re-enact a repealed sentencing enhancement without corresponding evidence that it was effective in deterring crime. That bill also lowered the standard for convicting an individual who causes injury or death to such a dog. While this bill does not lower the standard for conviction, it nonetheless expands the scope of several crimes without commensurate evidence that this is needed. Moreover, the existing provisions allowing compensation for crimes against service dogs have been in place for over three years and have not resulted in a single eligible claim. No claim has been denied because a dog was not in the performance of its duties at the time of a crime-the subject matter of this bill. At that time, the ability of law enforcement to submit cases to the index was eliminated, in part to eliminate redundancies and reduce costs. I am not fundamentally opposed to once again granting law enforcement the authority to submit cases to the index, however this bill does so in a manner that would undoubtedly lead to inconsistent application across and within counties. I encourage the proponents to work with the relevant stakeholders, including the Department of Social Services and Department of Justice, to further refine this proposal for future consideration."</i></p>

AB 1857	Nazarian	Building codes: earthquake safety: immediate occupancy standard	<p>This bill requires the California Building Standards Commission to establish a working group to consider whether California’s building codes should reflect a “functional recovery standard.”</p> <p><i>VETO message: “The National Institute of Standards and Technology is in the initial stages of developing an immediate occupancy standard for buildings following a natural disaster. This federal agency is consulting engineers, scientist, and other experts to understand the changes needed to ensure that a building can be used immediately after a natural disaster. Instead of duplicating this federal process at the state level, it would be wise to allow the Institute to finish its work.”</i></p>	Vetoed
AB 1873	Obernolte	Driver’s licenses: veteran designation	<p>This bill requires the Department of Motor Vehicles to waive the one-time \$5 fee charged to a person applying for a veteran’s designation to be displayed on their driver’s license or identification card.</p> <p><i>VETO message: “Reducing wait times in field offices and addressing the urgent needs of customers is the top priority. While these bills [AB 1873, AB 2058, AB 2135, SB 987, SB 1455] may have merit, it would be prudent for the Legislature to pause on additional mandates while the department works to complete programming for prior legislative mandates and system upgrades designed to reduce transaction times and improve customer service.”</i></p>	Vetoed

AB 2026	Lackey	Used vehicle salespersons	This bill requires a person licensed by the Department of Motor Vehicles as a salesperson for a dealer of used vehicles to complete an education program before they can perform their duties, activities and functions. <i>VETO message: "While it is obviously important that used car salespersons understand relevant laws and regulations, this bill is unnecessary. Car dealers are already required to be knowledgeable of applicable laws and to see to it that their sales staff follow the rules. Additionally, I am not a fan of mandating pre-packaged, four-hour continuing education courses which will never substitute for effective supervision."</i>	Vetoed
AB 2056	Eduardo Garcia	Mobilehomes	This bill (1) revises the Mobilehome Park Rehabilitation and Resident Ownership Program to allow financing of rehabilitation of a mobilehome park that is already owned by a nonprofit entity; (2) allows loans in addition to grants; and (3) allows financing of new park construction to replace a park that has been destroyed by a natural disaster. AB 2307	Frazier	High-Speed Rail Authority: Senate confirmation	This bill requires all Gubernatorial appointees to the California High-Speed Rail Authority Board of Directors be confirmed by the California State Senate. <i>VETO message: "In 2016, I signed Assembly Bill 1813 that added two members of the Legislature to the California High-Speed Rail Authority Board of Directors"</i>	Vetoed
