SUBJECT: Fiftieth anniversary of the fall of Saigon

SOURCE: Author

DIGEST: This resolution commemorates the 50th anniversary of the fall of Saigon.

Senate Floor Amendments of 2/6/25 add a principal coauthor to the resolution.

ANALYSIS: This resolution makes the following legislative findings:

- 1) The fall of Saigon on April 30, 1975, and the culmination of the Vietnam War led to the United States-sponsored evacuation of approximately 125,000 Vietnamese refugees in a first wave and hundreds of thousands more during the two-decade long Indochinese refugee crisis, creating what would become the United States' sixth largest foreign-born group.
- 2) Vietnamese immigrants and their United States-born children comprise one of the largest diaspora populations in the United States, at more than 1,800,000 individuals, and a large proportion of the first generation arrived in the aftermath of the Vietnam War.
- 3) California is home to 35% of the Vietnamese American population, which is the largest share in the country. California has one of the highest populations of Vietnam veterans in the country, and 5,822 service members from California died or went missing in the conflict.

This resolution commemorates the 50th anniversary of the fall of Saigon on April 30, 2025.

SUBJECT: Permanent standard time

SOURCE: Author

DIGEST: This resolution proclaims that the Legislature acknowledges the health benefits of permanent standard time.

- 1) The California Medical Association, California Sleep Society, American Academy of Sleep Medicine, National Sleep Foundation, Sleep Research Society, and Society for Research on Biological Rhythms advise against permanent daylight saving time and recommend permanent standard time.
- 2) Changing clocks between standard time and daylight saving time is disruptive to health, safety, education, and the economy. The Legislature passed Senate Bill 328 (Portantino) in 2019 in support of moving school start times to protect the importance of more sleep to students' health.
- 3) Permanent standard time presents a positive impact on businesses as workers are showing up alert, healthy, productive, and on time and can perform their job duties safely. Permanent standard time provides positive implications for religious groups as it relates to prayer times and fasting.

SUBJECT: Stiff Person Syndrome Awareness

SOURCE: Author

DIGEST: This resolution recognizes March 15, 2025, as International Stiff Person Syndrome Awareness Day, and thereby proclaims that March 15, 2025, is Stiff Person Syndrome Awareness Day throughout California.

ANALYSIS: This resolution makes the following legislative findings:

- 1) Stiff Person Syndrome (SPS) is a rare neurological autoimmune disorder that affects one in a million people. SPS is a terminal condition and there is no known cure.
- 2) SPS predominantly affects more females than males. SPS affects a person's central nervous system and motor skills. SPS causes heightened sensitivity to stimuli, muscle stiffening and spasms, diminished posture, and impaired mobility. Many people with SPS either never receive a proper diagnosis or remain undiagnosed.
- 3) Recently discovered treatments, including the use of autologous stem cell transplant, are improving the quality of life for individuals with SPS, but many symptoms associated with the syndrome remain untreated.
- 4) Patients suffering from SPS often suffer embarrassment due to abnormal and involuntary movements, which leads them to withdraw from society and increasingly isolate themselves as the disease progresses.

This resolution supports raising awareness and educating the public about SPS and applauds the efforts of advocates and organizations that encourage awareness, promote research, and provide education, support, and hope to those impacted by SPS.

SUBJECT: Sexual Assault Awareness Month and Denim Day

SOURCE: Author

DIGEST: This resolution recognizes the month of April 2025 as Sexual Assault Awareness Month.

ANALYSIS: This resolution makes the following legislative findings:

- 1) People of all genders and ages are victims of sexual assault, and it is estimated that nearly one in two women and one in five men experience sexual violence other than rape throughout their lifetime.
- 2) The National Intimate Partner and Sexual Violence Survey reports that there are over 22 million survivors of rape throughout the United States, with 2 million of those survivors of rape currently living in the State of California.
- 3) In 1998, the Italian Supreme Court overturned the conviction of a man who sexually assaulted an 18-year-old woman after the court determined that, “because the victim wore very, very tight jeans, she had to help him remove them, and by removing the jeans it was no longer rape but consensual sex”.
- 4) Enraged by the court decision, within a matter of hours, the women in the Italian Parliament launched into immediate action and protested by wearing jeans to work. Nations and states throughout the world have followed the lead of the Italian Parliament by designating their own “Denim Day” to raise public awareness about rape and sexual assault.
- 5) In 2021, California joined the States of New Hampshire and Florida in fulfilling the promise of Denim Day by approving and enacting Assembly Bill 939 Chapter 529 of the Statutes of 2021, which prohibits a survivor’s manner of dress from serving as evidence of consent in sexual assault cases.

This resolution recognizes April 23, 2025, as Denim Day in California and encourages everyone to wear jeans on that day to help communicate the message that there is no excuse for, and never an invitation to commit, rape.

SUBJECT: Wear Red Day and American Heart Month

SOURCE: Author

DIGEST: This resolution recognizes February 7, 2025, as Wear Red Day and the month of February 2025 as American Heart Month.

ANALYSIS: This resolution makes the following legislative findings:

- 1) Cardiovascular disease is the leading cause of death in women and claims more lives than all forms of cancer combined, yet only 44% of women recognize that cardiovascular disease is their leading cause of death.
- 2) Cardiovascular disease is the leading cause of maternal death in the United States, or, more simply put, heart disease is the number one killer of new moms, and overall, 10% to 20% of women will have a health issue during pregnancy, such as high blood pressure, preeclampsia, and gestational diabetes which greatly increase a woman's risk of developing cardiovascular disease later in life.
- 3) Cardiopulmonary resuscitation (CPR), especially if performed immediately, can double or triple a person's chance of survival and only about 46% of people who experience cardiac arrest receive CPR from a bystander while waiting for emergency responders to arrive.
- 4) Since 2004, the American Heart Association's Go Red for Women® movement has addressed the awareness and clinical care gaps of women's greatest health threat, cardiovascular disease, and continues to make bold moves to save lives and pioneer scientific discoveries.

This resolution recognizes the month of February 2025 as American Heart Month in California to raise awareness of the importance of the ongoing fight against

heart disease and stroke, and the effort to double the survival rate from cardiac arrest.
